

CRETE TERRAIN BOARDS / DROP-ON TERRAIN FEATURES

To recreate the tables in the Crete scenario book boards with the following features will be helpful (or if a base cloth is used the features need to be represented).

For a 6' wide table the boards are 2' x 2' or 2' x 1' (the airfield can be modelled on one 4' x 2' board or two 2' x 2' boards). For a 5' wide table the boards are 20" x 20" or 20" x 12".

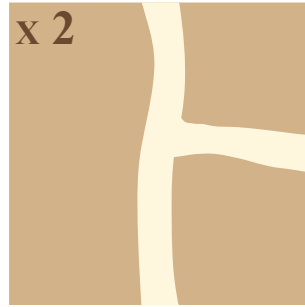

Flat board

Flat board with single road

Flat board with T junction

Flat board with crossroads

Large flat topped hill suitable for a hill village

Medium hill and road

Large hill and road which has a common flat surface with the large hill on the right

Large hill
